

Hands-on practice

Training with Simulation & Gaming

A powerful tool to teach less & learn more

***1 free place for each participant registered before 19 June 09**

For whom

This one-day *intensive* workshop is specially designed to all teachers, instructors, lecturers, trainers and professionals.

This workshop will cater for a wide range of teaching and professional communication situations: language skills, social interaction, teambuilding, cross-cultural communication, persuading, role-play and story-telling.

Workshop content

- Introduction to using simulations and games in teaching.
- Types of simulations and games that can be used for enhancing teaching and communication.
- Preparing and conducting a simulation and gaming learning experience.
- Hands-on introduction to project debriefing and facilitation.
- Ways to enhance the learning content
- Practical tips for getting administrators and parents acceptance.
- Adapting simulation and games to the Singapore curriculum.

About our workshop leader

Prof David Crookall, PhD, has over 30 years of teaching and research experience in the field of experiential training methodology, education technology, network simulation and gaming. He has published nine books and over 100 articles. He is past President of ISAGA and present Advisor for ISAGA2009 Conference in Singapore. He is the Editor-In-Chief of *Simulation & Gaming: An Interdisciplinary Journal*.

Dr Crookall is a professor of International professional Communication at the University of Nice Sophia Antipolis, France. He has also held other positions, such as : the Political Science Institute IEP, Lille, and Compiegne University of Technology (UTC), in France; University of Alabama and Pennsylvania State University (PennState), in USA; and the National University of Singapore (NUS).

He has been a Consultant and Trainer for many organizations such as: the French Embassy (e.g., Czech Republic, Malaysia and Singapore); the British Council (e.g., Malaysia, France, Czech Republic); Center for Applied Linguistics, USA; Ecole Nationale d'Administration (ENA), France; Chiba Institute of Technology, Japan; Mahidol and Chulalongkorn Universities, Thailand; Education Ministry, Malaysia; Education Ministry, Monaco. David was also director of Project IDEALS, a pioneering internet-mediated learning environment, based on multi-site, semester-long, socially-interactive simulations.
